DETAILED ACTION

Response to Arguments

1. Applicant's arguments, filed 03 February 2005, with respect to claims 1-11 have been fully considered and are persuasive. The rejection of claims 1-11 has been withdrawn.

Allowable Subject Matter

2. Claims 1-11 and 20-23 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 1-11, the examiner concurs with applicant's arguments set forth in applicant's reply of 03 February 2005. Accordingly, claims 1-11 are allowable for the reasoning set forth therein such that the closest prior art of record fails to disclose or suggest "associating a program guide type with a broadcast channel by updating a database in said video decoder".

With respect to claims 20-23, applicant's arguments set forth in the Appeal Brief filed 12 May 2004 pursuant to claims 20-23 (Identified as Issues 6 and 7) are persuasive and set forth the basis for allowability. Accordingly, the claims 20-23 are allowable for the reasoning set forth therein such that the closest prior art of record fails to disclose or suggest "determining from a decoder database if a program guide is associated with an individual broadcast channel, in response to a user channel change command".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the
